## Endurance Compression Series Promotion

The newly released Endurance Compression Series is the latest to join LMT Onsrud's lineup of compression spiral tooling. The unique coating extends tool life, and the optimized geometry aids in achieving maximum productivity when routing laminate wood, composite wood, soft wood, and hard wood.

### Features and Benefits

- Optimized flute geometry for improved chip evacuation
- Improved cutting edge quality for a more stable edge
- Proprietary top coating for unparalleled surface smoothness

### Usage

- Laminate Wood
- Composite Wood
- Soft Wood
- Hard Wood
